RURAL GUIDE

STEUBEN COUNTY NEW YORK

Rural Residents Given Street Address

In this publication are names and "Compass Addresses" of every rural resident in this county who lives outside cities, villages and non-agricultural suburban areas. The homes of these rural residents are indicated on the "Compass System" Map. The corresponding addresses and map simplify locating Mr. Rural Resident who now has an address which is not unlike the street address in the city.

Made by careful survey in the county, the "Compass System"—established and used regularly in many counties—is the standardized and accurate way to locate rural homes. For full pictorial explanation of the "Compass System" see inside front cover.

147-151 East State Street

ITHACA, NEW YORK

BC 1402355

WHERE DOES *John Doe* LIVE?

John Doe lives 6 miles South of Camden in house number 104 on Road W.

His "Compass" Address Then Is—

Doe, John 6S Camden 104W

To the left is a small section of a typical county "Compass System" Map. The county is divided into sections or trading areas, each section having a city or village as its center. This center is called the "Compass Center". Each section is made into eight zones: North, North East, East, South East, South, South West, West, and North West. Each zone is then divided by two-mile circles. Roads are then lettered, and houses are numbered on the map.

Now the Rural Resident has an address which may be likened to a street address in a city.

HOW TO USE THE MAP

1. Find Camden, the "Compass Center".
2. Look south from Camden until you find a large 6S.
3. Look for road W found in the 6S area.
4. Then look for number 104 which is on road W.

In congested areas, it has been necessary to give a group of houses one "Compass Address". In this case, you will find directly after the "Compass Address" the number of the house in that group. As an example, if John Doe lived in a congested area, his "Compass Address" might be 6NE Camden 159B(2). The (2) here means that his house would be second in the group.

Note Carefully

The Rural Guide is a complete alphabetical listing of the heads of all rural families living outside villages, cities and suburban areas in this county. The "Compass Address" follows immediately after the name. For every occupied home the name of the head of the home is listed.

If you do not find the full name of the person for whom you are looking, look for the name of some other member of the household who may be considered the head of the family.

An asterisk (*) before a name indicates that the person is married (i.e., both husband and wife living).

In congested areas, it has been necessary to give a group of houses one "Compass Address". In this case, you will find directly after the "Compass Address" the number of the house

in that group. As an example, if John Doe lived in a congested area, his "Compass Address" might be 6NE Camden 159B(2). The (2) here means that his house would be second in the group.

Do not be disturbed if the name of the "Compass Center" in the "Compass Address" is different from the Post Office address. As an example the 6S Camden 104W address may have an RD2 Rome as a post office address. The "Compass Address" is not a mail address.

Regardless of the Post Office address, the "Compass Center" (in this case, Camden) has been chosen because it seems the most practical point from which to locate the home. It is chosen for no other reason. This is why the "Compass Center" in the "Compass Address" may differ from the Post Office address. A complete mailing list is available in the Rural Register and the Classified Rural Register. Prices upon request. Write Rural Surveys, Ithaca, N. Y.

Warning: This "Compass System" Rural Guide and Map are fully protected by U. S. Copyright, and are sold under the implied terms that they will be used only in connection with the business of the purchaser. Publication in whole or in part will be prosecuted.

It is a difficult task to make a survey of all farms of a county. While we try to issue a correct list and classification we cannot assume any responsibility for errors. When notified of any mistakes we shall gladly make suitable corrections in the next edition.
