There is a note that "beside Amanda M. Wheeler there are 1 or 2 unmarked graves. One stone that was tipped over wasn't able to be lifted to see information."

NOTE on paper say's: "Polly Burrows is buried beside her mother Mary Kelly."

Is there a data error in year of birth as it is impossible for the mother to be younger than the daughter - ie: Polly Burrows b.1850 vs. Mary Kelly b. 1860?
